EXPERIENCE

WALGREENS PHARMACY

Staff Pharmacist

Houston, TX

Nov 2021 –August 2022

- Provided drug information to healthcare providers utilizing a variety of primary literature and clinical practice guidelines.
- Performed literature searches, evaluated data, maintained an in-depth understanding of product knowledge, associated disease states, and treatment guidelines for assigned therapeutic areas.
- Interpreted studies and clinical data to provide therapeutic recommendations for all audiences.
- Assisted with scientific communication planning, including the development and creation of strategic medical communication plans to educate patients about new vaccines.

CVS Pharmacy

Staff Pharmacist

Corpus Christi, TX

March 2021–Nov 2021

- Collaborated with clinicians and scientists to interpret study results and ensure statistical interpretations are accurately and clearly reflected.
- Critically evaluated literature, interpreted complex data, and adapted delivery information to a simplified form for all patient audiences.
- Compounded topical and oral solutions for patients with particular attention to detail.
- Calculated appropriate medication dosage for animals and humans.
- Maintained and organized thousands of pharmacy and patient records in accordance with Texas Law and company audits.

EDUCATION

GENERAL ASSEMBLY

Software Engineering Immersive (certificate)
